

# **PENNSYLVANIA APCO 2008**

## **SPRING CONFERENCE**

**May 19 - 21, 2008**

Welcome to the Pennsylvania APCO 2008 Spring Conference.. Once again this year the Conference will be held again at the Willow Valley Conference Center just South of Lancaster City on Rt 222 in Lancaster County. Willow Valley is a beautiful, modern facility including several pools and hot tubs. It also includes a nine-hole golf course.

We have planned a one-day pre-conference special session for Monday, May 19, 2008 presented by the National Center for Missing and Exploited Children. The morning session deals with the Initial Response to a report of a missing child and the afternoon session builds on the initial report by discussing resources available and the implementation of the investigation. This program is free to APCO members.

Again this year, Monday will be a day for the vendors to have one-on-one sessions to demonstrate their products. There is a different vendor scheduled for each hour. The schedule is listed on our website.

This year we have planned two Super Sessions. On Tuesday, Jeff Wittek, VP of Business Development \_Plant CML will focus on what PSAP's should do to prepare for NG911. Wednesday morning, Donald Coover, V-Comm, LLC will present the basic structures of network layouts for Broadband and MESH applications and information you should be aware of before you buy..

In addition, our program committee has planned educational seminars for telecommunicators, managers, and technicians.

And last but not least, you will find our commercial members displaying exhibits of the latest technology for state-of-the-art public safety communications on Monday evening from 1700 – 1900 hours. The exhibits include good food, networking, hospitality and our annual awards.

For further information on registration, hotel accommodations and Conference schedule, check our website at [www.paapco.org](http://www.paapco.org).
